# Eliminate document bottlenecks. Improve your bottom line.

Even as organizations move toward electronic transactions, documents are often printed, annotated, copied and communicated via PDF and paper documents. Paper-based information is hard to manage and expensive. PDF documents are inflexible and difficult to edit without the right tools. Inefficient document handling can slow your business down and prevent you from closing sales, solving a customer problem or getting products out the door. Those bottlenecks cost your organization money and waste time. It may even be costing you customers.

You have access to mobile devices with high resolution cameras and powerful multi-function devices (MFDs) that can scan paper documents reliably at high speed and turn them into documents that you can share. But can you scan them or take pictures of them and then route them, secure them, and share them with the right people in the right places at the touch of one button?

There is a new movement afoot with the rise of “learning workers.” A learning worker is far more valuable to an organization because they adapt with the changing workplace. They’re mobile, think for themselves, easily learn how to use new tools that help them work faster, collaborate and aren’t afraid to independently adjust business processes to be most effective. They need to work anywhere and have information available everywhere. Digitization of documents is the name of the game. Are you giving your learning workers everything they need so your organization can reap the benefits?

eCopy ShareScan makes processing documents easy and automates your important workflows, making complex tasks simple.

## One button gets documents onto your business information highway.

Now your employees can quickly on-ramp documents to all the destinations they require with the push of a button. eCopy ShareScan features the easiest way to get fast, error-free documents scanned and converted to formats that make your business run smoothly. You can scan multiple documents into a single document right at the MFD.

With eCopy ShareScan you get the best experience possible with an optional document preview on the screen, type-ahead lookups, and the rapPID™ “remember me” feature that makes it even easier to scan documents over and over again with the same settings.
